

A message from the Booster Club President:

To all new and returning parents and students, welcome to another year with the award-winning Clements High School Band and Color Guard. Despite the rough start to our summer band camp with the weather related delays, I hope everyone is ready to make this another wonderful year. The Band and Color Guard program at Clements High School has been successful for the past 25 years due to the dedication, hard work, and motivation of our directors, students, and all of our involved parents. The Booster Club has been hard at work already this summer getting ready for the coming year, and we are very excited about this year's program. Thanks to all the parents who have worked hard in getting us to this point, moving many years' worth of supplies and equipment into the new facilities. Our new wing is just about ready to go! Thank you also to the band directors, Daniel Galloway, Jeff Johnson, and Sara Day, for all their work during the summer in preparing for the coming year.

Once practices start on Wednesday, Aug. 6, check with your student to see if they have received their band registration packet. In it are a number of very important papers that parents need to complete and return back to the band hall, including the all-important Medical Form which is required to participate in school activities. Because the volunteers are so important to our program, please make a point to fill out the pink volunteer form. As I have determined in my 5 years as a CHS parent, an involved parent is an informed parent. There are many ways to give back to the band program with your time. Another way to support our students and directors is to participate in our fundraisers. The Booster Club raises money to support the Band and Color Guard, to purchase new instruments, and to pay for time with marching and music clinicians in order for our programs to remain competitive.

As we can see by the latest weather reports, the weather in our area is very unpredictable. Please check our website frequently for updates. There are many times when updates are made several times a day and information and times can change.

Let's all work together to make this a super year for the Band and Color Guard. I am pleased to serve as your Booster Club President this year. Please contact me or any of our other Booster Club officers if you have any questions.
